BlueMaster®

The Kingspan BlueMaster range offers a robust and convenient on site storage solution. This range has been specifically designed for the secure storage, dispensing and protection of AdBlue®.

The BlueMaster range is available from 1300 - 9000 litres with a number of specification options and intelligent tank management and monitoring systems to suit all agricultural, construction, mining and transportation requirements.

All BlueMaster tanks are double skinned for environmental protection and to safeguard against contamination.

Kingspan BlueMaster tanks ensure your AdBlue® remains pure for its lifetime in the tank protecting your assets and the environment. This is accomplished in three ways:

Closed Fluid Path

Manufacturers of AdBlue® agree that the closed controlled systems, like those found in Kingspan BlueMaster tanks, rigorously maintain AdBlue® purity.

Manufacturing and Material Compliance

All BlueMaster tanks conform to the highest manufacturing and material compliance standards (ISO 22241, DIBT, BS EN ISO 9001:2008) to deal with the chemical characteristics of AdBlue®.

Expertise & Knowledge

Kingspan has over 40 years' expert experience in the engineering and manufacturing of liquid storage solutions. Over the past 10 years we have worked with AdBlue® producers to create one of the safest and most environmentally responsible storage solutions available.

Product Specification 2

1. Mechanical (pneumatic) level gauge
2. K24 Flowmeter
